MACHINE AND FABRICATION SHOPS

2 FULL SHIFTS
NO OVERTIME CHARGES
24-HOUR SERVICE

Complete Machining & Fabrication Services

Ring Power's machinists, fabricators and welders specialize in all aspects of boring, milling, resurfacing, refurbishing, and salvaging services to restore your machine's engine or component and get your machine back up and running with minimal downtime.

MACHINING

- **BORING & MILLING** - Complete range of diameters and lengths
- **GRINDING & POLISHING** - General purpose, surface, cylindrical and power lapping
- **LATHE WORK** - Vertical and horizontal

ENGINE SERVICES

- **CYLINDER HEADS** - Rebuild/resurface
- **RODS** - Repair/re-bush
- **CRANKS & CAMS** - Service check/polish
- **FLYWHEELS** - Reface
- **BLOCKS** - Counter bore/metal lacing repair, complete recondition or salvage
- **MAIN BEARINGS** - Align bore

TRANSMISSIONS & DRIVE TRAINS

- Specialty Services
- Motor grader circles
- Rebuild and retrofit buckets and attachments
- Salvage of almost any component

If you can visualize it, we can fabricate it.

Our certified welders are equipped to handle a wide range of specialized metal fabrication services. If you can visualize it, we can make it: blades, buckets, roller frames and other custom tools and attachments can be designed to suit your specifications and purpose.

WELDING & FABRICATION

- **Custom fabrication and pattern cutting**
- **Welding** - Stick, Mig (Aluminum & Steel), Tig/all types (Steel, Aluminum, Stainless, Cast), Flux-Core, Brazing
- **250 Ton Accurpress/Brake Press** with variety of dies, can shape and/or form almost anything
- **Accurshear/Steel Shear** can shear from 16-gauge to 1/2", up to 10' long
- **Fast Cam/Burning Table** can follow basic patterns, or we can create and install our own patterns using torch or plasma. Can cut from 16-gauge to 6" x 10' long
- **Faccin/Plate Roller** rolls up to 1/8" – 1/2" plate x 8' long
- **Faccin/Small Plate Roller**
- **Pipe Roller** can bend, shape or form 1/2" to 3" pipe
- **Piranha/Ironworker** can punch holes, cut angle iron, shear smaller pieces of steel
