

# TRANSPORT YOUR TEAM

According to Time.com commutes longer than 20 minutes have a dramatic impact on health reducing stress-related health problems & giving downtime allows employees to prepare for their day and start with a better outlook.

More employees using the shuttle service increases timeliness and teamwork supporting a better work-life balance.

The average cost yearly for Americans to travel to & from work is \$2,600 (thebalance.com) offering employee savings of up to \$16 a day makes a difference in overall moral.

## COMPANY SAVINGS

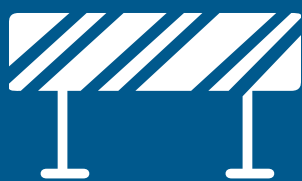

Your employees are a big focus but your company is just as big. Offering employee shuttles can give you a tax break on mileage and pride tax credits for comuter benefit programs.  
(gacommuteroptions/com)

## ENVIRONMENTAL IMPACT

Becoming more environmentally concious starts as a team. Riders will help reduce carbon output and traffic congestion. While iniciating a sense of family and community.

## SHOW OFF YOUR STUFF

Having a shuttle is like having a moving billboard from pickup to drop off and everywhere inbetween. You get your business and name out there.
